

KNIVES CARE INSTRUCTIONS

To ensure long life and performance of your blade the following procedures are recommended:

Hand washing recommended for best results.

Wash immediately after use with a good quality washing detergent, rinse and dry with a soft cloth.

Do not use abrasive cleaning cloths or harsh washing chemicals as these can damage your blade.

If using a dishwasher remove before the drying cycle and hand dry.

Washing in a dishwasher may cause splitting of the handle or rusting of the blade.

Do not leave knife to soak in water or store in damp conditions.

Failing to follow the care instructions could lead to staining, discolouration and corrosion of the blade.
